NCBS / Thinking Head project Top-Up Scholarship

The Faculty of Information Sciences and Engineering of the University of Canberra is offering a top-up stipend of $7,000 per annum for a student undertaking a PhD thesis in the National Centre for Biometric Studies. The project is related to the Thinking Head Project (www.canberra.edu.au/faculties/ise/ncbs/thinkinghead) and will be in one of the following research areas:

- Automatic Speech Recognition (ASR) or Audio-Video Speech Recognition (AVSR)
- Speaker Recognition / Verification / Authentication
- Face Recognition or Facial Feature Tracking
- Speaker Characterisation or Facial Expression Recognition
- Affective Computing / Affective Sensing
- Multimodal Human-Computer Interaction (MM-HCI)
- Pattern Recognition / Multimodal Fusion Algorithms

A list of potential PhD topics can be found at http://ise.canberra.edu.au/hcc_lab/research-student-projects/. Other project topics are possible, if they fit into at least one of the above mentioned research areas.

The stipend is available for up to 3 years either for a local student (Australian citizen, NZ citizen, Australian permanent resident) having gained an APA scholarship or a scholarship for international students in the Faculty of ISE commencing in 2010.

Further information is available from Prof Michael Wagner (michael.wagner@canberra.edu.au) or Dr Roland Goecke (roland.goecke@canberra.edu.au).
